Journey, preparation and placement

2 big questions!! 🤔

- Domain
- Scope

Learning - where to start?

Roadmap

- Learn in public!

Tip: T shaped skills.

Resume

Professional Growth Platforms

LinkedIn, Twitter, Slack, etc

Skills/Projects/Internships > Certifications > Courses

Career in Cloud and Certifications

AWS, GCP, Azure

Learnings from Mr. Chirag Nayyar:

- Keep reading surveys like Gartner Reports, etc.
- Certifications are just a cup of tea having Knowledge is much more important!
- Cloud is an add-on part
- Fundamentals: Networking, Storage, Computation, SQL
- Communities do play a vital role
- At the end, Purpose Specific Solution on Cloud must be the outcome
- People come first and then Technology

Masters/Job ?

Hustle

Problems!
